# Sophomores...

## Here's what the new 2-year Army ROTC program means to you

A new Reserve Officer Training Corps program permits selected college sophomores to be commissioned as Army Second Lieutenants in two years. You can do this by:

1. Completing a special 6-week summer camp between your sophomore and junior years.
2. Completing the 2-year Advanced Course at any school offering the ROTC program.

*What are the benefits of Army ROTC training?*

- Management training for success in civilian or military life.
- \$40 per month pay while attending the Advanced Course, plus uniforms; pay and paid travel for summer camps.
- Eligibility for free flight instruction at selected schools leading to a private pilot's license.
- A commission as an Army officer, with all of its accompanying benefits, including higher income, greater opportunity for advancement and officer status.
- The personal satisfaction that comes from knowing you're trained to assume leadership responsibilities.

These benefits will put you a step ahead of other college graduates and will pay off for the rest of your life. You owe it to yourself to investigate these new opportunities.
